

# Wicked Scent Wickah!

The Wicked Scent Wickah is a rather simple contraption we here at Maine Scent Secrets developed out of a few spare parts we had lie'n round the shop! Muthah's plastic container, a mini whirlygig, 4 AA bat-trees (not included), some soupah special wicken material, a zippy tie, hook & loop-t-do cloth and some electrical tape to make it all work.

She works just Pissah too!

Just add 4 AA Batteries, enough of your favorite attractant or cover scent to the soupah wicken material, put the cover back on er' and flip the switch, the air sucks right on in the top holes and blows your attractah or covah scent right where you want it to blow ...downwind to the crittah!  
**\$24.95 + S&H**

On rainy days slip er' inside a 1 quart freezer bag, and leave one end open.. Muthahs always got one handy!
